Subject: RE: Greensboro Smart Kiosk Planning Session

Hi Zack,

We are working with Smart City Media. They have deployed smart kiosks in Kansas City, Louisville, Memphis Dallas, Little Rock and others. I visited Kansas City and met with Bob Bennett, Chief Innovation Officer for KC who led the implementation there. Kansas City has a good track record with SCM and is expanding their deployment to over 100 kiosks.

Next week I have a meeting with SCM and Duke Energy to discuss proposed locations and look at the availability of power and fiber. This is a first pass at developing a plan and proposal for Smart Kiosk deployment. A lot of decisions will need to be made regarding content, apps, graphic design, etc. I want to make sure we have the right people engaged in the process.

The goal of this meeting is to start putting together a team and developing a plan for Smart Kiosks in Greensboro.

Some of the suggested locations that I will share at the meeting are:

Downtown:

- **Center City Park**
- **LeBauer Park**
- **MMOB**
- **Depot**

Gate City Blvd (Smart Corridor Project)

- **Bus Stops – Circulator Bus Route from Koury to Downtown**
- **Coliseum**
- **Aquatics Center**
- **Visitor's Center**
- **UNCG**
- **Greenway**
- **Koury Convention Center**

Battleground Parks District

- **Science Center**
- **Country Park Carousel**
- **Battleground Park**

Other

- **NC A&T State University**

When considering locations keep in mind the Sign Ordinance – they cannot be legible from passing cars.

I have attached an overview provided by Smart City Media for your review. I will run through this at the meeting.

If you cannot attend the meeting but have suggestions, comments, or ideas to share, send them to me and I will include them in the meeting.

There will probably be a follow up meeting later in September after the meeting with SCM.

Here are a couple of articles about kiosks in Louisville and Kansas City:

https://www.businesswire.com/news/home/20180430006604/en/Smart-City-Media-Duke-Energy-Launch-Game-changing

https://www.citylab.com/solutions/2017/09/kansas-city-smart-city-bob-bennett-technology/538563/
I look forward to hearing your ideas on this.
Thanks,
Jane

Jane – I am really interested in this project. This Friday is going to be a bit difficult at 2:00.
Is there a certain firm the City is considering? We have reviewed a few at IDA conferences.
I would enjoy seeing any information you can send me to review.
Thank you,
Zack

Jane and Team:

Unfortunately, I am not available this Friday, but you have the GSC's full support to install and utilize as many kiosks as you see fit at the GSC and in BPD. Our team will happily help with design, if needed. We have a green screen studio if you want to capture actors, citizens, city staff, community leaders (or anyone) saying great things about Greensboro in the backgrounds of your choice.
